

# Lower Savannah Council of Governments Scanning Services

## Large Format Scanning – Large Format Copying – Digital Conversion

### SERVICES

**Large Format Scanning** – Allows your agency to scan large paper maps, blueprints or mylars up to 40" wide to digital files (JPEG or TIFF file format). Scans can be color or black & white, and your agency can choose to have its digital maps saved on CD-ROM or DVD. Large format scanning will allow your agency to back up critical documents for archival storage. With our scanning services, you can quickly recover from disaster and avoid the problems of deteriorating paper maps. Additionally, you will be able to readily access, distribute, and print the images from any imaging software.

**Large Format Copying** – Color as well as black & white large format copying is available. Sizes A through E can be copied (up to 30" x 45"). If your agency needs extra copies of tax maps or engineering drawings, this is the best way to distribute the information. We can also custom enlarge, reduce, or crop images.

**Digital Conversion** – This is the process of converting raster files (lines and dots) to digital vector data (still lines and dots, but with a geographical reference such as latitude and longitude). The most exciting part of raster to vector conversion is that once converted, the data can interact with GIS or CAD applications. With raster to vector conversion, paper maps can be digitized for use with GIS layers. For example, parcel maps can be digitized and overlaid onto digitized orthophotos (or any other GIS layers).

### PRICING

#### Large Format Scanning\* (scan to CD-ROM or DVD)

| <u>Quantity</u>       | <u>Cost per item**</u> |
|-----------------------|------------------------|
| <10 b&w               | \$14.00                |
| 10-30 b&w             | \$13.00                |
| >30 call for prices   |                        |
| <10 color/grayscale   | \$28.00                |
| 10-30 color/grayscale | \$26.00                |
| >30 call for prices   |                        |

#### Large Format Copying\* (E size paper copy)

| <u>Quantity</u>       | <u>Cost per item**</u> |
|-----------------------|------------------------|
| <10 b&w               | \$35.00                |
| 10-30 b&w             | \$32.00                |
| >30 call for prices   |                        |
| <10 color/grayscale   | \$45.00                |
| 10-30 color/grayscale | \$42.00                |
| >30 call for prices   |                        |

#### Digital Conversion

Call for custom quote.

\*All prices reflect 200 dpi quality. 400 to 2400 dpi available at extra charge. Prices include color balancing and cropping. Custom corrections and enhancements available at extra charge.

\*\* Government pricing is 20% discount from listed prices.
